

**Prof. Dr. Gold, Ralf**

\* September 12, 1960  
Ruhr-University Bochum  
Faculty of Medicine  
Chair of Neurology  
St. Josef-Hospital  
Gudrunstr. 56, 44791 Bochum, Germany  
[ralf.gold@rub.de](mailto:ralf.gold@rub.de)  
<http://neurologie.klinikum-bochum.de/>

**Education:**

**1980-1986** Study of Medicine, University Würzburg, **1986** Dr. med. (magna cum laude), Faculty of Medicine, University Würzburg, **1989-1992** DFG postdoctoral fellowship, Max-Planck Institute, Neuroimmunology, Würzburg and München (director H. Wekerle), **1996** Habilitation, venia legendi for Neurology, Faculty of Medicine, University Würzburg

**Positions:**

**1995** Consultant in Neurology, **1997-2002** Head, clinical research group for MS and Neuroimmunology, Neurology, University Würzburg with full professorship **since 2001**. **2003** Chair, Institute for Experimental and Clinical Neuroimmunology, University Göttingen, **since 2006** Chair of Neurology, Ruhr-University Bochum

**Scientific Honours / Awards:**

**1980-1986** Scholarship, national scholarship foundation, **1996** Heinrich-Pette-Award of the German Neurological Society, **1997** Langheinrich-Award of the Berlin Society for Psychiatry und Neurology, **2000** Ernst Klüh-Award of the German Hospital Society, **2008** Hans-Georg Mertens-Award of the German Neurological Society, **2011** Sobek Preis

**Further activities (selection):**

**1999-2003** Founding member, secretary of the SFB 581 „Molecular Models for Diseases of the Nervous System“, **since 1997** Board member of the scientific advisory committee of the German MS Society, **since 2007** Member of the ECTRIMS councils, ISNI Advisory Board, **since 2008** Member of the DFG advisory board of neurosciences, **since 2009** Founding member, board of the BMBF (Federal Ministry of Education and Research)-network multiple sclerosis, Executive board ECTRIMS, panel leader EFNS Demyelinating Diseases

**Research areas:**

Molecular mechanisms of neuroprotection in MS, translational MS medicine, T cell directed therapies in neuroimmunology, surrogate markers for individualized medicine
